

David E. Eyler

*Senior Vice President and
Savannah River National Laboratory Deputy Director,
Savannah River Nuclear Solutions, LLC*

EDUCATION

*U.S. Naval Academy
Bachelor of Science, Electrical Engineering*

*Naval Postgraduate School
Master of Science, Systems Technology*

*Naval War College
Master of Arts, National Security and Strategic Studies*

EXPERIENCE

David E. Eyler is Senior Vice President and Deputy Director of the U.S. Department of Energy's Savannah River National Laboratory (SRNL), operated by Savannah River Nuclear Solutions (SRNS). He is responsible for the management, operation, safety and program direction of SRNL, which conducts research and development in environmental stewardship, clean energy and nuclear materials.

Eyler has extensive experience in the management, maintenance and operation of the Navy's nuclear propulsion systems and facilities. During his naval career, Eyler served in positions of increasing responsibility, including Director of Maintenance and Modernization for the Atlantic Submarine Force, where he supervised the scheduling and execution of the maintenance and modernization of more than 30 nuclear powered submarines, requiring the coordination of numerous military, government, and industrial activities. He also served as Squadron Commander of six nuclear powered submarines and as Commanding Officer of Nuclear Power Training Unit in Ballston Spa, New York.

Following his naval career, Eyler was a senior engineer with the Defense Nuclear Facilities Safety Board, where he was responsible for oversight of several facilities within the Department of Energy's nuclear weapons complex. He served as Vice President, Nuclear Materials Operations, and Vice President, Engineering, for SRNS before assuming his current position.
