We Put Science To Work™

SRS Orth Award Page 2 of 2

One of the criteria for receiving the Orth Award is serving as a mentor to younger professionals beyond the normal expectations. One of Dr. Bibler's proteges, now a manager at SRS, called him "the best mentor I have ever encountered" for his contagious love of science, and his approach to guiding the young professionals under his influence. His mentoring has helped to shape the career of numerous researchers, helping them to make significant contributions early in their careers.
