

Gregory R. Cefus

**Deputy Associate Laboratory Director
Global Security**

Savannah River National Laboratory

EDUCATION

University of Michigan, M.S., Nuclear Engineering

Georgia Institute of Technology, BNE, Nuclear Engineering

POSITION Mr. Gregory R. Cefus is the SRNL Deputy Associate Laboratory Director for Global Security.

EXPERIENCE Prior to joining BSRA, Greg served as SRNL's Deputy Associate Laboratory Director for National Security and as the Acting Associate Laboratory Director for National Security where he was responsible for program growth and execution across NNSA and other U.S. Government national security organizations. Prior to joining SRNL, he served in various roles with the U.S. Government, including the Director of the NNSA's Office of Global Radiological Threat Reduction and the Director of the Weapons of Mass Destruction and Asymmetric Threats Division within DOE's Office of Intelligence. Greg began his career more than 30 years ago in various roles at SRNL. He is recognized in nuclear nonproliferation and national security. Greg is the recipient of the NNSA's Administrators Award of Excellence for his exemplary service to NNSA and received commendations for outstanding contributions and exception service to the Intelligence from the National Intelligence Council.
